

"Household furniture and effects, all savings deposits in banks, trust companies and other corporations, estates of widows, orphans and minor children where the estates are not actively employed in business but are investments to insure support of beneficiaries.

"I still insist that to equalize taxation in Cook county, which for years has been grossly and perhaps fraudulently unjust, there should be increased taxation on thousands of acres of unimproved land in this county, held by corporations under private charter, and by other corporations and individuals, and that there should be an increase on the taxation of many classes of personal property that are employed in business for the earning of large profits."

"It has been repeatedly suggested that all of the revenue laws cannot be enforced against every one. I have frequently stated that if I can procure the co-operation of the taxing bodies I am willing to select for prosecution only what I regard as the more serious violations of the law, if it will only advance the cause of equity and fairness.

"But I have insisted that if in the exercise of the discretion lodged in the public prosecutor I am to omit criminal prosecutions of some violators that this omission must tend to promote equity and the general public good.

"I am trying to reduce, not increase the tax rate. I am especially trying to equalize taxation on the only legal basis, which is the constitutional one, of value and uniformity.

"If the tax laws are honestly and vigorously enforced in Cook county the tax rate can be more than cut in half."

#### PRESSERS ON STRIKE
